

AKSHIT DHIMAN

Computer Science Engineering Student | Himachal Pradesh, India

+918219731543 | dhimanakshu870@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

B.Tech, Computer Science Engineering – Himachal Pradesh Technical University (2022 – Present)

Intermediate & High School – HP Board, Govt. Model Sen. Sec. School, Dhundla (XII: 2022 | X: 2020)

TECHNICAL SKILLS

Programming: JavaScript, HTML, CSS

Web/Mobile: MERN Stack (MongoDB, Express.js, React.js, Node.js), React Native, Bootstrap

Tools: Git, GitHub, VS Code, Google Colab

EXPERIENCE & INTERSHIPS

Web Development Intern – Certiwise, Mohali (6 Month internship)- Currently developing a live project called *Tradelink*, a contractor–builder management platform focused on verification and role-based access control.

Web Development Intern – CS-Infotech, Chandigarh (45 Days) – Developed responsive full-stack MERN websites and integrated RESTful APIs.

AI & Data Analytics Virtual Intern – AICTE, Shell India & Edunet Foundation (4 Weeks) – Completed data analysis and AI application modules focused on sustainability.

PROJECTS

- **CleanCycle (Sustainable Waste Management website)** – Designed and developed a sustainable waste management system that connects users with agents for scheduled and categorized waste pickups. Features include booking, notifications, feedback system, pickup tracking, and role-based dashboards for users, agents, and admin. The admin panel manages users, assigns pickups to agents, and monitors system activity and requests.
- **Ecommerce-website (Ecommerce website for buying clothes)**- Built a full-stack ecommerce platform for purchasing clothes for men, women, and kids using the MERN stack. Implemented category-based product browsing, cart functionality, and Stripe payment integration for secure checkout. Added a “most popular products” section for better user experience. Developed an admin panel to manage products, add new items, and view the product list
- **Tradelink(contractor builder management)**- Developed a centralized platform to streamline contractor onboarding, document verification, and management for builders using a secure and scalable system. Implemented role-based access for builder, contractor, and admin. Builders can invite contractors via link, review profiles, and manage subscriptions with limits on contractor additions. Contractors can submit business details and join the platform, while admins monitor user activity, manage contractors, and handle system administration.

ACHIEVEMENTS & CERTIFICATIONS

-
- Full Stack Web Development Intern | Certiwise (6-Month Internship) | Jan 2026 – Present
 - Web Development Internship – CS-Infotech, Chandigarh

- AI/ML Internship – Pisoft, Mohali
- AI & Data Analytics Virtual Internship – AICTE

EXTRACURRICULAR & LEADERSHIP

- District-Level Cricket Player | Leadership & Teamwork| Playing outdoor games
